CALRECYCLE GUIDELINES

A

OUT-OF-STATE LICENSE PLATES

- If your vehicle has an out-of-state license plate, the maximum that you can be paid for your eligible CRV load is capped at \$50.00.
- If your load is > \$50.00, we are only allowed to pay scrap value for the entire load. We cannot split the load into a CRV and non-CRV payment.

B

DAILY ALLOWABLE LIMIT & SPLIT LOADS

- Daily load limits of empty CRV beverage containers are 100 pounds each for aluminum and plastic, and 1,000 pounds for glass.
- If you bring in more weight than the allowed limits for any individual item, we are required to reject the entire load. We cannot purchase split or partial loads.

C

IDENTIFICATION REQUIREMENT

- You are required to print or sign your name on the CRV receipt for our records.
- Pictures of you are not required for CRV-only transactions.
- If your transaction includes any non-ferrous materials, we are required to take your picture for our records.

D

WET ITEMS AND SHRINKAGE

- If your items are wet or we see liquids in your cans and bottles, we may apply a "shrinkage" amount to your load.
- The shrinkage amount will reduce the total weight that you are paid for to offset the extra weight from your liquids.

E

COUNT LIMITATIONS

- Customers who deliver empty CRV beverage containers to recycling centers may request to be paid by count for up to 50 containers of each material type: 50 glass, 50 aluminum, 50 plastic.
- CRV for containers < 24 oz are \$0.05 and > 24 oz are \$0.10 per container.

F

CRV VS NON-CRV ITEMS

- CA law requires us to Pay CRV re-funds for loads that contain ONLY eligible CRV beverage containers. Non-CRV materials must be removed from the load, or we may reject the load or pay only the scrap value for the material.
